MANUFACTURERS OF CLEANSERS, POLISHES, DISINFECTANTS AND INSECTICIDES. SPECIALISING IN INDUSTRIAL SUPPLIES.

27 September 1991

To Whom It May Concern

John Gower has worked for our company for almost five years in the position, initially, of Grade 4 Technician rising within a three year period to a Grade 1 Technician/Supervisor.

Our company manufactures a range of quality controlled MAF Approved chemicals in all areas and John's position has required him to work with a wide variety of chemicals, not only in formulation but handling stock control as well. I list the following points of reference:

- Five years uninterrupted service
- The last three years without a day off sick or otherwise
- Can work unsupervised
- Sole charge position for the last two years
- Does not shy away from unpleasant jobs
- First three years doing deliveries and pick-ups, general store and factory work
- Last two years making products, descaling milking plants and general storework
- John is also hardworking with common sense and can get his jobs done on time and in a quick and efficient manner
- John has shown willingness to learn and is currently completing 6th Form Chemistry at night school of his own accord

It is with sincere regret that John leaves us. I have watched John develop from adolescence to a mature and conscientious member of our company. To any future employer who obtains John's services, I would be more than happy to endorse the above.

Yours faithfully

W L Stevens
